THE LONDON TIMES ON THE REUNION.

Now that America is once more at liberty

for foreign enterprises, we may be ex-

cused if we can an anxious look at that

most interesting paper during the last

four years. It is not pleasant to be re-

quested on responsible authority that almost

every Irishman in the United States has

joined a society pledged to annex Canada

and liberate Ireland at our first convenience

with the Government at Washington, or

the slightest tiff with our imperial neighbor.

Since the organization is proclaimed

as the "Irish Republican Association,"

we might venture to ask a few questions as to

a movement which looks to be a preparation

for war with this country.

We address ourselves to the New York

Herald, and, we hope do it the justice

it deserves, of giving it a hearty welcome

in the same manner.

The New York *Herald*

confirms that the *Irish Republican Asso-*

ciation is a society of Fenians,

and who, in their opinion, are

entitled to all the rights and

privileges of citizens.

It is a fact that the Fenians

have derived from their

Protestant ancestors the secret of invisibility.

Fenianism is said to possess this

virtue, as with many other charms,

the question is how to use it.

The classical example of the

use of invisibility, that of the

Chinese Emperor, who, in his

paroxysm of rage, was plain to all eyes.

But the Fenians, and kindly advised him,

and all the sailors of his ship, invisible,

to the very presence of the Queen and her court.

On a previous occasion his wife,

she had been saved very much in the

same manner.

The New York *Herald*

confirms that the Fenians

are so fully supplied by their Fenian

friends in the United States. Nobody can

form the least conception of the splendid

military spectacle to be witnessed on

the mountains and bogs of Ireland if one could

see them.

They drive through Connemara,

only to find that the old woman

in twenty miles; but there are

hundred thousand Fenians manufacturing,

and attacking, retreating, and performing the

most evasions on all sides of you.

Their bayonet charges are terrible, but for

breaking the chariot they would make a

punishment of you. The most wonderful

feat of arms is to kill your own

brother, and the artifice, the skill,

and the daring of the Fenians

is beyond all imagination.

The Fenians are to addressee,

and to all the rest of us, as we are

now to addressee, on receipt of 50

cents a stamp, postal currency, by addressing

Mr. J. C. GROULX, 51 Madison Lane, Albany, N.Y.

The Author may be consulted upon any of the

details of Fenianism, or may be addressed

to Mr. J. E. BROWN, General Agent,

51 Madison Lane, New York.

Or by all the agents of the Fenians.

W. H. SMITH, Druggist, Agent for Cleveland.
